My name is Sam Cohen, a hair loss and hair replacement specialist. For more than 35 years I have been associated with the research, development, improvements and innovations of various hair treatment and hair replacement programs. Using prescribed topical and oral pharmaceutical products and herbal preparations, I have helped thousands of men, women and children with 'genetic baldness' achieve a high level of satisfaction by re-growing their own natural hair back. I also solved their 'hair and scalp problems', custom designed the most versatile and natural looking 'Hairpieces', improved 'Hair Implantation' procedures and consulted and advised on all types of 'Hair Transplants'.

I therefore believe that I can talk with justified authority on all matters relating to itchy scalp, dry or oily hair, excessive hair loss, thinning hair, baldness and all the above programs and procedures. With my knowledge and practical experience, I can very strongly suggest that I can achieve great results for you, or any one else in your family who may have concerns about excessive hair loss or baldness provided, you act soon. The DHT affected dormant hair roots do not stay alive longer than 4 years. Free on-going advice and check ups are also included with all our programs.

You do not have to spend thousands of dollars with recurring cost for various unnecessary 'Cosmetic' products, 'Office Treatments', 'Mineral Hair Analysis', 'Lasers', etc.. Furthermore, most of these organizations make it an important part of their guarantee that you attend their premises on a regular basis, so they can keep a grip on you and your money. Not so with 'IHRB's Hair Re-growth Program. You pay far less and it can be conducted in the privacy, convenience and comfort of your own home.

Country clients and those who do not wish to visit our clinics, need not worry. We will send you a 'Questionnaire', instructions and all the relevant information, thoroughly explaining the cause and how the treatment works. I will also send you a 'referral letter' for your doctor to prescribe the 'Topical Solution' and tablets/capsules, if necessary. I can also liaise with your nominated local medical practitioner. You supply the information and we will honestly suggest the appropriate program, product or procedure that is most suitable to you. ***Its that simple!***

If you have tried or currently trying treatments without or with very limited success or feel that you are paying too much, then you need to discuss our 'Hair Treatment Program' that offers **guaranteed results or your money back.**

HAIRPIECES: Most companies have 'fancy' names for a 'hairpiece'. If you are very bald or wearing hairpieces, come and visit us. We can design and custom make the lightest, very versatile and the most natural looking ones. We can also 'trade' in you old hairpiece.

MONO or MICRO-HAIR TRANSPLANTS: We can advise and recommend the best 'Surgical Procedure', and 'Medical Practitioners'.

ARTIFICIAL HAIR IMPLANTATION: We will advise with caution.

We have enclosed a few documents which will inform you about IHRB's various programs and options. Therefore, the first thing to do is easy, just pick up the phone and call us. We look forward to speaking to you soon.

Yours sincerely,

Sam Cohen
Managing Director
